PROFESSIONAL SUMMARY

Junior web and software developer building practical applications with React, TypeScript, and modern tooling. Comfortable shipping end-to-end features — UI, APIs, auth, and deployment. Recent work includes an association management system, consent-based live location sharing, and a client marketing site. Open to junior / graduate developer roles where I can contribute quickly and grow with a team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend / Data: Node.js, Express, Firebase (Auth, Firestore, Storage), Socket.io, REST APIs

Tools: Git, GitHub, Vite, Vercel, Netlify, Render, VS Code
